Forecast For Wales
Issued by Met Office Exeter
at 0400 on Sunday 12 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy for all, with rain becoming widespread.

Today:
A cloudy start with outbreaks of rain moving in from the west through the morning. Into the afternoon, rain becomes more widespread across the country, heavy at times in the south. Maximum temperature 19 deg C (66 deg F).

Tonight:
Rain continues spreading eastwards overnight, with southern and central areas seeing heavier outbreaks at times. Becoming drier for most by dawn. Minimum temperature 13 deg C (55 deg F).

Monday:
A drier start, as rain continues to clear during the morning. Southern and western areas then seeing further rain, heavy in places, arrive through the afternoon. Remaining quite cloudy throughout. Maximum temperature 19 deg C (66 deg F).

Outlook for Tuesday to Thursday:
A wet start Tuesday, with showers and spells of rain, before becoming drier later. Drier and brighter Wednesday and Thursday with the odd isolated shower; feeling warm in any sun.
